

**Alles Charis Gas Ltd**

YOUR ONE STOP  
INTEGRATED LPG SUPPLIER

C O M P A N Y P R O F I L E

Alles Charis Gas Limited is incorporated in Nigeria under the Companies and Allied Matters Act of 1990. The company aspires to be a truly integrated LPG supplier in Nigeria. The goal is to be a player in all phases of the supply chain of LPG in Nigeria.

Alles Charis has leveraged upon industry expertise and technical prowess in ensuring safety, quality, precision and satisfaction. The time to deliver irrefutable quality product and adhere to strict safety norms is now. Together stronger in building an end to end, from production to satisfaction LPG company

With GREEN ENERGY INTERNATIONAL LIMITED we have been able to access an LPG production company that support who we are.

After an overview of the Liquefied Petroleum Gas sector (LPG), our founding team realized critical problems in the sector. One of such problems was the lack of a truly integrated LPG supply company. This has led to erratic gas supply, high price of LPG and supply shortages. Alles Charis was established to be an end to end LPG company which handles everything from production to retailing of LPG in Nigeria. The goal is to use world class equipment and technology whilst empowering communities, employees and customers to deliver quality products and excellent services.

### **Production**

With industry expertise and experience we have created a partnership with GREEN ENERGY INTERNATIONAL LIMITED to produce LPG and propane cylinder. This allows us to be a key player in the production phase of LPG.

### **Distribution**

With industry certified bridgers we intend to carry LPG from the production field to our different storage facility across the country. We will also help our clients carry from coastal or inland facilities over long distances. Our Bobtails will be used for short-distance distribution and logistics

### **Storage**

We have built storage facilities across the nation to ease the distribution of LPG. Adherence to safety standards and in time delivery will ensure customer satisfaction.

### **Retail**

To be truly end to end, we will serve end users for personal or commercial use. The satisfaction of the end user is our goal.

Our services are reliable and follow all safety and quality standards. We have used technology, industry expertise and world class research facility to build a strong business. Our hardworking team are eager to help your business and our customers reach their full potentials through satisfaction.

We currently have 20 bridgers (25 ton capacity), 10 bobtails ( 10 ton capacity), we also have plans to increase the fleet of our trucks to fulfill logistics.

- LPG logistics solutions
- LPG solutions consultancy
- Retail services and doorstep delivery
- Bulk installations for industries
- Gas off-taking
- Gas storage

One of the robust plans of the company is to start a cylinder ownership scheme that ensures safety, accessibility to gas and also reduce switching cost for our customers.

## CORE VALUES
